

Maidstone and Malling Alternative Provision 2016 Self-Harm Policy

1. Introduction

Recent research indicates that up to one in ten young people in the UK engage in self-harming behaviours, and that this figure is higher amongst specific populations, including young people with special educational needs. School staff can play an important role in preventing self-harm and also in supporting pupil, peers and parents of pupil currently engaging in self-harm.

2. Scope

This document describes the school's approach to self-harm. This policy is intended as guidance for all staff including non-teaching staff and management committee. It should be used in conjunction with the medical policy, safeguarding policy, mental health policy, confidentiality policy and PSHE/PSD policy.

3. Aims

- To increase understanding and awareness of self-harm
- To alert staff to warning signs and risk factors
- To provide support to staff dealing with pupil who self-harm
- To provide support to pupil who self-harm and their peers and parents/carers

4. Definition of Self-Harm

Self-harm is any behaviour where the intent is to deliberately cause harm to one's own body for example:

- Cutting, scratching, scraping or picking skin
- Swallowing inedible objects
- Taking an overdose of prescription or non-prescription drugs
- Swallowing hazardous materials or substances
- Burning or scalding
- Hair-pulling
- Banging or hitting the head or other parts of the body
- Scouring or scrubbing the body excessively

5. Risk Factors

The following risk factors, particularly in combination, may make a young person particularly vulnerable to self-harm:

Individual Factors:

- Depression / anxiety
- Poor communication skills
- Low self-esteem
- Poor problem-solving skills
- Hopelessness
- Impulsivity
- Drug or alcohol abuse

Family Factors

- Unreasonable expectations
- Neglect or physical, sexual or emotional abuse
- Poor parental relationships and arguments
- Depression, self-harm or suicide in the family

Social Factors

- Difficulty in making relationships / loneliness
- Being bullied or rejected by peers

6. Warning Signs

School staff may become aware of warning signs which indicate a pupil is experiencing difficulties that may lead to thoughts of self-harm or suicide. These warning signs should **always** be taken seriously and staff observing any of these warning signs should seek further advice from one of the designated teachers for safeguarding children.

Possible warning signs include:

- Changes in eating / sleeping habits (e.g. pupil may appear overly tired if not sleeping well)
- Increased isolation from friends or family, becoming socially withdrawn
- Changes in activity and mood e.g. more aggressive or introverted than usual
- Lowering of academic achievement
- Talking or joking about self-harm or suicide
- Abusing drugs or alcohol
- Expressing feelings of failure, uselessness or loss of hope
- Changes in clothing e.g. becoming a goth

7. Staff Roles in working with pupil who self-harm

Pupil may choose to confide in a member of school staff if they are concerned about their own welfare, or that of a peer. School staff may experience a range of feelings in response to self-harm in a pupil such as anger, sadness, shock, disbelief, guilt, helplessness, disgust and rejection. However, in order to offer the best possible help to pupil it is important to try and maintain a supportive and open attitude – a pupil who has chosen to discuss their concerns with a member of school staff is showing a considerable amount of courage and trust.

Pupil need to be made aware that it may not be possible for staff to offer complete confidentiality. **If you consider a pupil is at serious risk of harming themselves then confidentiality cannot be kept.** It is important not to make promises of confidentiality that cannot be kept even if a pupil puts pressure on you to do so.

Any member of staff who is aware of a pupil engaging in or suspected to be at risk of engaging in self-harm should consult one of the designated safeguarding leads (Stacie Smith, Barbara Wallace and Emma Hancock.)

Following the report, the designated teacher will decide on the appropriate course of action. This may include:

- Contacting parents / carers
- Arranging professional assistance e.g. doctor, nurse, social services
- Arranging an appointment with a counsellor
- Immediately removing the pupil from lessons if their remaining in class is likely to cause further distress to themselves or their peers

In the case of an acutely distressed pupil, the immediate safety of the pupil is paramount and an adult should remain with the pupil at all times

- **If a pupil has self-harmed in school a first aider should be called for immediate help.**

8. Further Considerations

Any meetings with a pupil, their parents or their peers regarding self-harm should be recorded in writing including:

- Dates and times
- An action plan
- Concerns raised
- Details of anyone else who has been informed

This information should be stored in the pupil's child protection file.

It is important to encourage pupil to let you know if one of their group is in trouble, upset or showing signs of self-harming. Friends can worry about betraying confidences so they need to know that self-harm can be very dangerous and that by seeking help and advice for a friend they are taking responsible action & being a good friend. They should also be aware that their friend will be treated in a caring and supportive manner.

The peer group of a young person who self-harms may value the opportunity to talk to a member of staff either individually or in a small group. Any member of staff wishing for further advice on this should consult one of the designated teachers for safeguarding children.

When a young person is self-harming it is important to be vigilant in case close contacts with the individual are also self-harming. Occasionally schools discover that a number of pupils in the same peer group are harming themselves.

MMAP is to provide training for staff on self-harm and mental health wellbeing using in house and external resources. The importance of mental health wellbeing and resilience also forms an important part of the PSHE/PSD curriculum.

This policy is to be used in conjunction with the PSHE/ PSD, Mental Health and Child Protection and Safe guarding policies.

The Head teacher, in partnership with the member of staff responsible for Citizenship/PSHE/ PSD and Welfare is responsible for monitoring this policy.

The Management Committee of The Maidstone and Malling Alternative Provision is responsible for ensuring the annual review of this policy.
